L

QTY:12PCS

G

QTY:4PCS

8. Adjust the position of the four columns so that they are perpendicular to the ground. Meanwhile, the width of the top of each two columns should be measured in accordance with the width of the bottom of each two columns. Then use a marker pen to mark 16 holes on the ground, which should be corresponding to the holes in the bottom palte.

Use tools: marker pen

9. Remove the product from the mark and drill holes of $\phi 14 \times 100$ at 16 mark positions on the ground with a percussion drill.

Drilling depth $\phi 14 \times 100$
Drilling quantity 16pcs

Use Tools: Percussion Drill

Use Tool: Percussion Bit $\phi 14$

10. Place the plastic expansion pipe in the bottom hole of the column; then move the product back to the hole drilled, align holes of the column bottom plates with the hole drilled on the ground; then set O into the woodworking screw and fix it with the ground separately.

O

QTY: 16PCS

11. Insert all flaps (E),
on the end of the brackets on both sides of the beams (B1-D and B2-D),
and press down on the slat as shown in the sketch below to secure it.

12. Adjust according to below steps if the pergola can't close completely

13. Put the hand crank J on, turn to open/close the flap; installation completed.
